**C. Claims 1, 4, and 21 were rejected as anticipated by Ellesson**

The §102(e) rejection of claim 1, 4, and 21 as anticipated by Ellesson is traversed. Anticipation requires that the reference disclose each element of the claims in as great detail as claimed. Since Ellesson does not disclose operating a directory service provider server to perform a data manipulation within a master directory database as claimed in claim 1, this rejection must fall.

Ellesson, at most discloses that a directory service provider server (i.e. directory server 103) notifies a third party on a specified event, but Ellesson does not disclose operating a directory service provider server to perform a data manipulation within a master directory database. See, Ellesson column 4, lines 49-54 as cited by the Examiner.

Claim 4 has been cancelled, and its subject matter incorporated into claim 5 that formerly depended from claim 4.

Claim 21 has been cancelled, and its subject matter incorporated in dependent claims 22 and 26.

Withdrawal of the rejections to claims 1, 4, and 21 is requested.

**D. Allowable claims**

Applicants thank the Examiner for the noted allowability of claims 2-3, 5, and 22-26.
